**Re: Administrative Relief request for Planned Development No. 1319
Sub area A, 200-208 N. Green Street**

Dear Ms. Dale:

Please be advised that your request for a minor change to Business Planned Development No. 1319 ("PD 1319"), has been considered by the Department of Planning and Development pursuant to Section 17-13-0611 of the Chicago Zoning Ordinance and Statement No. 12 of PD 1319. On June 1, 2016, administrative relief was granted to correct a typographical error in the PD regarding the required 5,200 square foot green roof.

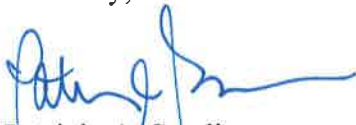

Your client and the owner of all of the property within Sub area A of PD 1319, 200 Green Developer LLC, is now seeking administrative relief to allow for the following modifications to the proposed building at 200-208 N. Green Street:

- Revise the layout of the green roof to accommodate an updated layout and design, including the removal of several trees. As shown on the attached, revised Green Roof Plan, the green roof area will remain 5,200 square feet (33.5% of the green roof area) and the project will be LEED Silver.
- Revise (1) the opaque portions of the West and North Elevations from metal panel to rendered cement finish and (2) the tower enclosure materials from metal panel column and slab edge covers with masonry details and relief, metal and glass. These changes are shown on the attached, revised North, South, East and West Elevations, Typical Window Bay Detail, Parking Bay-Brick Pattern on East Façade Detail, Façade Detail-Base, Façade Detail-Tower, Façade Detail-Top, East Façade Rendering, and Southeast Corner-Train Rendering.
- Identify space for two art murals on the building's North and West Elevations. As noted on the drawings, the area to be covered by the murals will be finished with reveals and scored patterns and in a similar color palette so as to match the rest of the building. The murals must be works of art with no commercial message. Signs, as defined in Section 17-17-02159 of the Chicago Zoning Ordinance, are not allowed.

With regard to your request, the Department of Planning and Development has determined that allowing the proposed green roof and elevation revisions will not create an adverse impact on the Planned Development or surrounding neighborhood, will not result in an increase in the bulk or density, and will not change the character of the development, and therefore, would constitute a minor change.

Accordingly, pursuant to the authority granted by the Chicago Zoning Ordinance and Business Planned Development No. 1319, I hereby approve the foregoing minor change, but no other changes to this Planned Development. This minor change is valid for twelve (12) months from the date of this letter unless action to implement the minor change is commenced within such time period and thereafter diligently pursued to completion, including, if applicable, construction consistent with the minor change as authorized by a building permit. If action to implement the minor change, including construction, does not begin within the time set forth, or does not proceed with reasonable diligence, then the approval will lapse and become null and void.

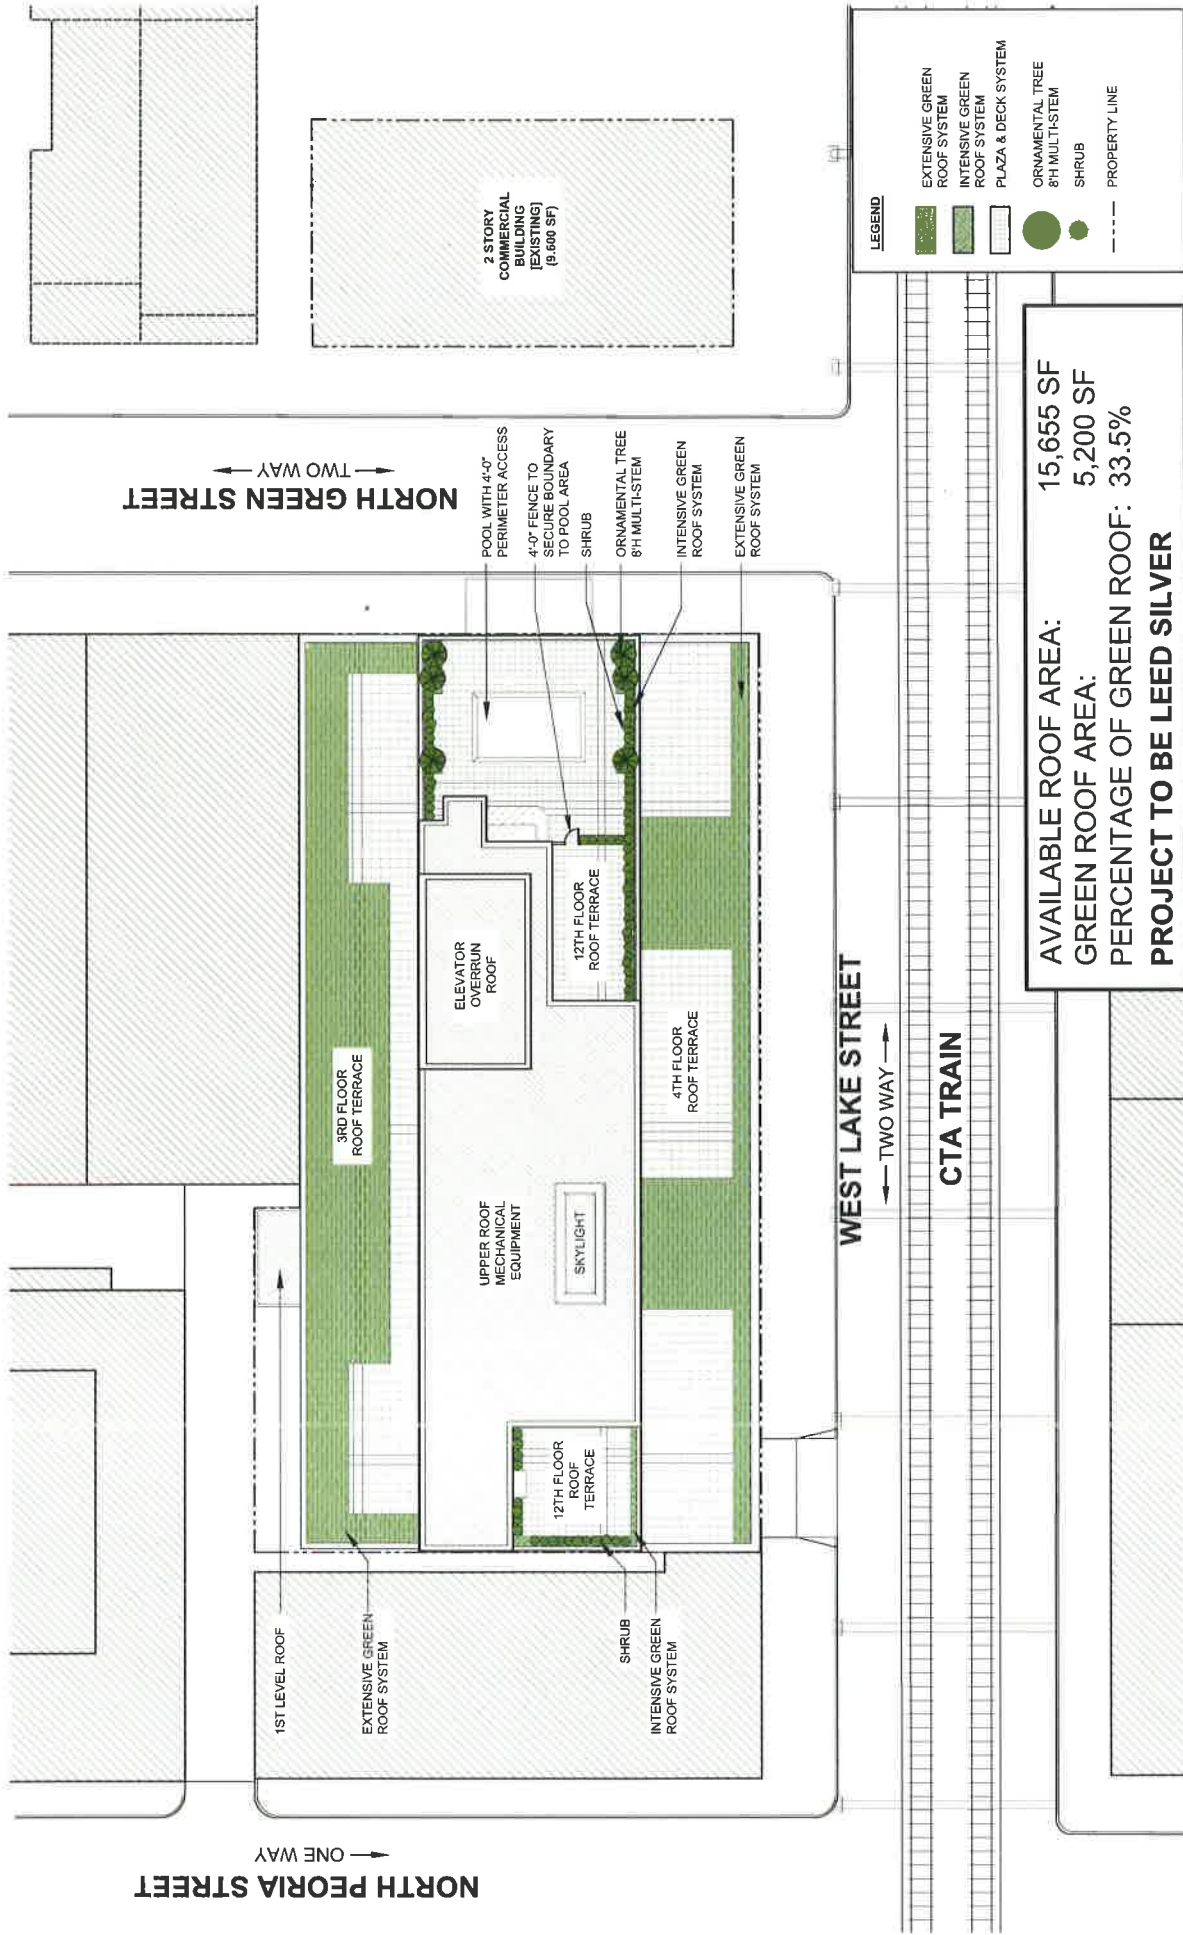

Sincerely,

Patricia A. Scudiero
Zoning Administrator

**Re: Administrative Relief request for Planned Development No. 1319
Green roof square footage at 820-850 W. Lake Street and 200-208 N. Green Street**

Dear Mr. Klawiter:

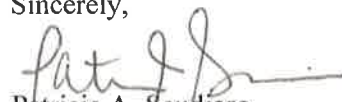

Please be advised that your request for a minor change to Business Planned Development No. 1319 ("PD 1319"), has been considered by the Department of Planning and Development pursuant to Section 17-13-0611 of the Chicago Zoning Ordinance and Statement No. 12 of PD 1319.

Your client and the owner of all of the property within Subarea A, 200 Green Developer LLC, is seeking administrative relief to correct a typographical error in the amount of green roof required in Statement Number 14 of the PD Ordinance. Statement Number 14 requires a green roof of 52,000 square feet while the Green Roof Plan identifies a green roof requirement of 5,200 square feet. The correct number is 5,200 square feet.

With regard to your request, the Department of Planning and Development has determined that correcting the typographical error and bringing Statement Number 14 into compliance with the Green Roof Plan will not create an adverse impact on the Planned Development or surrounding neighborhood, will not result in an increase in the bulk or density, and will not change the character of the development, and therefore, would constitute a minor change.

Accordingly, pursuant to the authority granted by the Chicago Zoning Ordinance and Business Planned Development No. 1319, I hereby approve the foregoing minor change, but no other changes to this Planned Development. This minor change is valid for twelve (12) months from the date of this letter unless action to implement the minor change is commenced within such time period and thereafter diligently pursued to completion, including, if applicable, construction consistent with the minor change as authorized by a building permit. If action to implement the minor change, including construction, does not begin within the time set forth, or does not proceed with reasonable diligence, then the approval will lapse and become null and void.

Sincerely,
